CAREER OBJECTIVE

Software Engineering Enthusiast with strong foundations in Data Structures, Algorithms, and backend development. Experienced in building full-stack and AI-powered applications using React, Django, and MongoDB. Passionate about developing scalable systems and leveraging AI/ML techniques to solve real-world problems.

EDUCATION

Bhoj Reddy Engineering College for Women B.Tech – Computer Science Engineering ; CGPA: 9.10	Hyderabad, India 2023 - Present
Narayana Junior College Intermediate – MPC ; Percentage: 97.8%	Hyderabad, India 2021 - 2023
Sai Baba Adarsh Vidyaniketan SSC ; CGPA: 10	Hyderabad, India 2011 - 2021

SKILLS SUMMARY

- Languages:** Java, Python, C
- Frameworks:** Django, React.js (Basic), Flutter, Spring Boot (Learning)
- Web Technologies:** HTML, CSS, JavaScript
- Backend Development:** REST APIs, API Design, Authentication, CRUD Operations
- Databases:** MySQL, MongoDB
- Tools:** Git, GitHub, VS Code, Microsoft Office (Word, Excel, PowerPoint)
- Soft Skills:** Problem-solving, Logical thinking, Adaptability, Eagerness to learn

WORK EXPERIENCE

Summer Intern(YOLOv8) – iHub-Data, IIIT Hyderabad	May 2025 – Aug 2025
- Processed and annotated medical image datasets for training object detection models using YOLOv8 - Trained and evaluated model performance for skin lesion detection tasks	
Frontend Development Intern – IBM SkillsBuild (CSRBOX)	Jun 2024 – Aug 2024
- Developed multiple responsive UI components using HTML, CSS, and JavaScript - Improved usability by implementing structured and interactive layouts	

PROJECTS

SkillConnect – Team Collaboration Hub | <https://github.com/TEJASREE-2006/SkillConnect>

- Developed a full-stack platform to connect users with projects based on skills
- Designed RESTful APIs and implemented a skill-matching algorithm for recommendations
- Technologies: React, Django REST Framework, MongoDB

VidGenie | <https://github.com/TEJASREE-2006/VidGenie---An-AI-Powered-Video-Creation-App>

- Developed a full-stack application for generating educational videos from text input (topic name)
- Implemented backend APIs and designed a scalable content generation workflow
- Designed the system architecture to support future AI-based video generation features
- Technologies: Flutter, Django, MySQL

CERTIFICATES

- Attended a 6-month training program on “**AIML**” at IIITH. (Sept 2024 to March 2025)
- NPTL Elite Certificate for “**Programming In Java**”. (Jan 2025 to Apr 2025)
- Certificate of Achievement for successfully completing the 6-week “**Applied AI Internship – Learn, Design, and Build with Artificial Intelligence**” by CSRBOX in collaboration with AICTE and IBM SkillsBuild. (Dec 2025 to Jan 2026)
